PHILAM 3A5

With just over a month to go before Christmas, Santa's helper Boy Marvin arranges "the fat men in red" the better to attract shoppers to Arellano St. in Manila. The Santas and other yuletide decor are a fund-raising project of Barangay 755.

## Army major's homosexual activities caught on tape

By Christian V. Espinosa

ANOTHER scandal, this one sexual in nature, is rocking the military.

Army Maj. Ferdie Ramos has been placed on "technical arrest" following a television expose showing him allegedly forcing several military trainees to engage in oral sex and other homosexual activities.

Army spokesperson Maj. Victor Bacarro said Ramos has also been suspended as chief of Civil Military Operations at Camp O'Donnell in Capas, Tarlac.

Ramos is a member of Philippine Military Academy Class 1988.

The Army provost marshal has also begun investigating Ramos for possible violation of Article of War 96 which covers any conduct unbecoming an officer and a gentleman, Bacarro said.

"The provision covers a wide range of violations," Bacarro told the business yesterday. "In Major Ramos' case, he is being investigated for the scandalous acts he had allegedly committed."

Bacarro said Ramos will also be subjected to disciplinary proceedings, arising from his alleged sexual misdemeanors.

But Bacarro clarified that Ramos was not being

discharged because of his sexual preference.

"We don't discriminate against gay officers in the military," he said. "We differentiate their being gay from their actions. We file a case against them if they commit an act that is perverse in nature but there's no regulation banning gays in the military."

Ramos came under fire after a military trainee went to GMA-7's Investigator TV program to complain about the alleged indecent acts the major had been forcing his men to take part in. The complainant brought a video to back up his allegation.

The TV program aired the video on Sunday. It showed Ramos allegedly forcing a trainee to perform oral sex on him. In other instances, the major allegedly did the same thing to the trainee. Other frames showed trainees forced to engage in sex while Ramos took videos of the sexual acts.

Bacarro said the Army had yet to receive a formal complaint against Ramos but it had started its own investigation.

Bacarro said Ramos had no business dealing with trainees at the Army's Light Armored Brigade at Camp O'Donnell.

Ramos' job was limited to bridging the gap between the local Army unit and the local community, he said.

## Alert still up at Taal Volcano

TAGAYTAY CITY—Two weeks after Taal Volcano started showing signs of activity, the Philippine Institute of Volcanology and Seismology (Phivolcs) has maintained the alert level in a 10-km radius around the picturesque volcano, officials said yesterday.

Quoting the latest Phivolcs advisory, Senior Supt. Roberto Rosales, Cavite police chief, said activities around the volcano's main crater were still prohibited as alert level 1 was still up in the area.

Rosales said the Phivolcs monitoring center recorded at least two high-frequency volcanic

earthquakes the other day.

The Phivolcs report said its seismic network registered a total of 31 high-frequency volcanic earthquakes in a span of seven days.

It noted that while there had been no visible "steaming activity of reactivated vents" at the volcano's main crater on Tuesday, there had been "weak steaming (about) 5 meters high" on Nov. 10.

Last week, Phivolcs noted the temperature and acidity in the lake were at 27 degrees C. and 3.0, respectively. **Markon Marnan, PHN Southern Luzon**

# HK consulate adds hours

Consulate hours in Hong Kong have been extended to 10 p.m. on weekdays, according to a statement from the consulate.

The extension is effective from Nov. 11 to Nov. 13, 1992.

The extension is due to the fact that the consulate is now open on Wednesdays.

## CURE BAD BREATH NOW

Bad breath is a common problem that can be cured with a simple treatment.

The treatment is effective for all types of bad breath.

The treatment is available at the consulate.

Results also suggest that the use of a short-term, intensive type of drug use intervention for the 12 weeks immediately following arrest is associated with a lower risk of relapse to drug use than a longer-term, less intensive intervention (Belenky et al., 2007).

It is worth noting that the 1990s have been the last decade in which the number of people living on the poverty line in the United States has declined. In 1990, 33 million people lived on the poverty line, or 12.5 percent of the population. In 1999, 35 million people lived on the poverty line, or 12.7 percent of the population. In 2000, 36 million people lived on the poverty line, or 12.9 percent of the population. In 2001, 37 million people lived on the poverty line, or 13.1 percent of the population. In 2002, 38 million people lived on the poverty line, or 13.3 percent of the population. In 2003, 39 million people lived on the poverty line, or 13.5 percent of the population. In 2004, 40 million people lived on the poverty line, or 13.7 percent of the population. In 2005, 41 million people lived on the poverty line, or 13.9 percent of the population. In 2006, 42 million people lived on the poverty line, or 14.1 percent of the population. In 2007, 43 million people lived on the poverty line, or 14.3 percent of the population. In 2008, 44 million people lived on the poverty line, or 14.5 percent of the population. In 2009, 45 million people lived on the poverty line, or 14.7 percent of the population. In 2010, 46 million people lived on the poverty line, or 14.9 percent of the population. In 2011, 47 million people lived on the poverty line, or 15.1 percent of the population. In 2012, 48 million people lived on the poverty line, or 15.3 percent of the population. In 2013, 49 million people lived on the poverty line, or 15.5 percent of the population. In 2014, 50 million people lived on the poverty line, or 15.7 percent of the population. In 2015, 51 million people lived on the poverty line, or 15.9 percent of the population. In 2016, 52 million people lived on the poverty line, or 16.1 percent of the population. In 2017, 53 million people lived on the poverty line, or 16.3 percent of the population. In 2018, 54 million people lived on the poverty line, or 16.5 percent of the population. In 2019, 55 million people lived on the poverty line, or 16.7 percent of the population. In 2020, 56 million people lived on the poverty line, or 16.9 percent of the population.

## US plan to overhaul spy agencies unravels

Figure 1 consists of eight histograms arranged in a 4x2 grid. The columns are labeled 'A' and 'A^T'. The rows are labeled '1000', '2000', '3000', and '4000' on the left side. Each histogram shows the frequency of the number of non-zero elements in the sparse matrix. The x-axis for all histograms is 'Number of non-zero elements' ranging from 0 to 1000. The y-axis is 'Frequency' ranging from 0 to 100. The distributions are roughly bell-shaped and centered around 500-600 non-zero elements.

Ukwekwakwawo kwakwazi

Figure 1: A schematic diagram of a two-dimensional lattice. It shows a grid of points with various labels. At the top, 'x' and 'y' axes are indicated. A central point is labeled '0'. Other points are labeled with 'x' and 'y' coordinates. A path is shown starting from '0' and moving through points labeled '1', '2', '3', '4', '5', '6', '7', '8', '9', '10', '11', '12', '13', '14', '15', '16', '17', '18', '19', '20', '21', '22', '23', '24', '25', '26', '27', '28', '29', '30', '31', '32', '33', '34', '35', '36', '37', '38', '39', '40', '41', '42', '43', '44', '45', '46', '47', '48', '49', '50', '51', '52', '53', '54', '55', '56', '57', '58', '59', '60', '61', '62', '63', '64', '65', '66', '67', '68', '69', '70', '71', '72', '73', '74', '75', '76', '77', '78', '79', '80', '81', '82', '83', '84', '85', '86', '87', '88', '89', '90', '91', '92', '93', '94', '95', '96', '97', '98', '99'. The path is indicated by a series of arrows.

## Pork & spilled beans

**A** lot of ink has been spilled over the pork barrel issue. The debate has been going on for years, but it seems to be getting more heated now.

### EDITORIAL

The pork barrel issue has been a long-standing problem in the Philippines. It has been a source of controversy and has led to many allegations of corruption.

One of the main problems with the pork barrel is that it allows politicians to spend money on projects that are not in the best interest of the people. This has led to a lot of waste and has caused many people to lose faith in the government.

Another problem is that the pork barrel has been used to reward politicians and their families. This has led to a lot of nepotism and has caused many people to feel that the government is not fair.

The pork barrel has also been used to fund projects that are not needed. This has led to a lot of money being wasted and has caused many people to feel that the government is not responsible.

The pork barrel has been a major problem in the Philippines for many years. It has caused a lot of controversy and has led to many allegations of corruption. It is time to take action to reform the pork barrel.

The loan is expected to be approved by the ADB Board of Directors in the near future.

# ATO gets P9.2B in loan for systems upgrading

**By Donald T. Brown**

AT&T Worldcom Inc. has secured a \$1.2-billion loan from the Asian Development Bank to upgrade its telecommunications systems in the Philippines. The loan, which is the largest ever granted by the bank to a private company, will be used to finance the construction of a new fiber-optic backbone network and the replacement of existing equipment. The upgrade is part of a larger project to modernize the country's telecommunications infrastructure.

## Sin tax bill seen to result in ratings downgrade

**By Rhonda T. Brown**

The passage of a new sin tax bill in the Philippines is expected to result in a downgrade of the country's credit rating by international agencies. The bill, which would increase taxes on alcohol, tobacco, and gambling, is seen as a sign of economic mismanagement. Analysts believe that the increased taxes will lead to higher inflation and a loss of investor confidence.

# Gov't seeks funding to look into corruption, red tape

*BIR hopeful it will meet P3-B revenue target*

By Patricia T. Baker

MANILA, Sept. 20 (AP) — The Philippine government is seeking \$1 billion in international aid to help it fight corruption and reduce red tape, a move that could help it meet its target of P3 billion in revenue for 1992.

The government is seeking aid from the World Bank, the Inter-American Development Bank, and the Asian Development Bank. The aid is needed to help the government fight corruption and reduce red tape, which is a major problem in the Philippines.

The government is also seeking aid from the United Nations Development Programme (UNDP) and the United Nations World Bank. The aid is needed to help the government fight corruption and reduce red tape, which is a major problem in the Philippines.

## The art and bliss of 'Felicidad'

**By Rosalinda**

**O**ne of the most beautiful and blissful experiences in life is the art of embroidery. It is a craft that has been passed down from generation to generation, and it is a craft that is still thriving today. Embroidery is a form of art that allows you to express your creativity and your love for your craft. It is a craft that is both challenging and rewarding, and it is a craft that can be enjoyed by people of all ages and backgrounds.

**I**T'S A common view that having a "water closet" in a car is an essential item of "toilet" equipment. But a good deal of thought goes into fitting toilets and other convenience items of a car's equipment. Several factors must be considered in choosing a toilet.

**Study**—An observational study of 134 gay couples living in Sweden from 1989 to 1990. The researchers found that gay couples were more likely to be in a relationship for a longer period of time than heterosexual couples.

Canine is a good example of a breed that has been bred for a specific purpose. It is a breed that has been bred for a specific purpose.

Although the study by Wang et al. (1999) was the first to show that the use of the Internet can be a useful tool for the personal counseling and the social support of the Internet for people, however, there were many limitations. First, it was a cross-sectional study. Second, it was a self-report study. Third, it was a small sample size. Fourth, it was a single-center study. Fifth, it was a single-country study. Sixth, it was a single-language study. Seventh, it was a single-gender study. Eighth, it was a single-age study. Ninth, it was a single-education study. Tenth, it was a single-occupation study. Eleventh, it was a single-religion study. Twelfth, it was a single-culture study. Thirteenth, it was a single-society study. Fourteenth, it was a single-political system study. Fifteenth, it was a single-economic system study. Sixteenth, it was a single-legal system study. Seventeenth, it was a single-moral system study. Eighteenth, it was a single-value system study. Nineteenth, it was a single-belief system study. Twentieth, it was a single-philosophy study. Twenty-first, it was a single-science study. Twenty-second, it was a single-art study. Twenty-third, it was a single-literature study. Twenty-fourth, it was a single-music study. Twenty-fifth, it was a single-dance study. Twenty-sixth, it was a single-theater study. Twenty-seventh, it was a single-film study. Twenty-eighth, it was a single-television study. Twenty-ninth, it was a single-radio study. Thirtieth, it was a single-newspaper study. Thirty-first, it was a single-magazine study. Thirty-second, it was a single-book study. Thirty-third, it was a single-journal study. Thirty-fourth, it was a single-encyclopedia study. Thirty-fifth, it was a single-dictionary study. Thirty-sixth, it was a single-thesaurus study. Thirty-seventh, it was a single-glossary study. Thirty-eighth, it was a single-index study. Thirty-ninth, it was a single-bibliography study. Fortieth, it was a single-reference study. Forty-first, it was a single-citation study. Forty-second, it was a single-quotation study. Forty-third, it was a single-illustration study. Forty-fourth, it was a single-figure study. Forty-fifth, it was a single-table study. Forty-sixth, it was a single-chart study. Forty-seventh, it was a single-graph study. Forty-eighth, it was a single-diagram study. Forty-ninth, it was a single-form study. Fiftieth, it was a single-template study. Fifty-first, it was a single-style study. Fifty-second, it was a single-format study. Fifty-third, it was a single-layout study. Fifty-fourth, it was a single-design study. Fifty-fifth, it was a single-theme study. Fifty-sixth, it was a single-motif study. Fifty-seventh, it was a single-symbol study. Fifty-eighth, it was a single-icon study. Fifty-ninth, it was a single-button study. Sixtieth, it was a single-menu study. Sixty-first, it was a single-window study. Sixty-second, it was a single-screen study. Sixty-third, it was a single-cursor study. Sixty-fourth, it was a single-keyboard study. Sixty-fifth, it was a single-mouse study. Sixty-sixth, it was a single-touchscreen study. Sixty-seventh, it was a single-voice study. Sixty-eighth, it was a single-text study. Sixty-ninth, it was a single-image study. Seventieth, it was a single-video study. Seventy-first, it was a single-audio study. Seventy-second, it was a single-animation study. Seventy-third, it was a single-game study. Seventy-fourth, it was a single-simulation study. Seventy-fifth, it was a single-model study. Seventy-sixth, it was a single-tool study. Seventy-seventh, it was a single-instrument study. Seventy-eighth, it was a single-machine study. Seventy-ninth, it was a single-device study. Eightieth, it was a single-system study. Eighty-first, it was a single-network study. Eighty-second, it was a single-protocol study. Eighty-third, it was a single-standard study. Eighty-fourth, it was a single-specification study. Eighty-fifth, it was a single-interface study. Eighty-sixth, it was a single-user study. Eighty-seventh, it was a single-administrator study. Eighty-eighth, it was a single-developer study. Eighty-ninth, it was a single-creator study. Ninetieth, it was a single-owner study. Ninety-first, it was a single-user study. Ninety-second, it was a single-administrator study. Ninety-third, it was a single-developer study. Ninety-fourth, it was a single-creator study. Ninety-fifth, it was a single-owner study. Ninety-sixth, it was a single-user study. Ninety-seventh, it was a single-administrator study. Ninety-eighth, it was a single-developer study. Ninety-ninth, it was a single-creator study. One hundredth, it was a single-owner study.

business transfer, because the  
the business is being sold, the  
transfer is treated as if the  
business had been sold.

For the purpose of this study, we sought to identify the role of the two parents in the child's life. We used a questionnaire (see Table 1) to ask the parents and the child to rate the importance of the child's relationship with each parent. The questionnaire was administered to the parents and the child separately. The questionnaire was administered to the parents and the child separately. The questionnaire was administered to the parents and the child separately.

**Philanthropy** The foundation of the organization is a public charity and a private foundation, both of which are exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. The foundation is a 501(c)(3) organization and is not a 501(c)(4) organization.

good value.

demanded, women as both buyers and

and the fact that the authors of the study did not find a significant difference in the number of children who were born to women who had been sexually abused and those who had not.

The country is heavily dependent on the state, but not the federal government, which supports the social initiatives of civil society through its institutions.

the 1970s, an estimated 100,000 people were killed in Cambodia's "killing fields," some because they were suspected of or actually were Communist Party members. Others were killed as a part of the government's policy to create a new society with no remnants of the former French colonial society.

The day has been a difficult one indeed. The day has been a difficult one indeed. The day has been a difficult one indeed.

**Cough**  
The 19th century was an era of remarkable scientific achievement, with the discovery of penicillin and the development of the first modern vaccines. It was also a time of great social change, with the rise of the labor movement and the struggle for civil rights. The 19th century was a time of great progress and achievement, and it is a time that we should all be proud of.

to join the environmentalists in a fight for the preservation of the park.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

**Keywords:** child sexual abuse; disclosure; legal system; mental health

## Education expo at Intramuros

**STRENGTH Training:** In addition to cardiovascular activity, you can do strength training with light to moderate weights (about 10 to 15 pounds) three times a week. **STRETCHING:** After you finish your workout, stretch for 10 to 15 minutes. Stretching helps to prevent injury and improves flexibility.

# Abstracting the natural world

Re: Letter regarding: "Special"

**N**ATURAL gas will be a critical energy source for the U.S. in the coming decades, says a report by the U.S. Energy Information Administration (EIA) released last week. The report, titled "Natural Gas in the U.S. Energy Future," says that natural gas will be the most important energy source for the U.S. in the 21st century, and that it will be the most important energy source for the world in the 21st century.

and calls it *strongly* *nonreductive* (1993, 1994).

These are some of the most interesting studies of the use of the Internet in the workplace. The authors conclude that the use of the Internet in the workplace is a promising area for future research.

Other authors have reported the finding that all women had mild to severe depression (14), that 90% were depressed (15), and that 90% of children were in the attention deficit hyperactivity disorder (ADHD) spectrum (16). However, in the present study, 25% of children had ADHD.

20

As a result, the company's sales are expected to grow by 10% to 12% in 2004, while its operating profit is expected to grow by 15% to 20%.

**Transcript** **10/10/2008**

Today, the average adult (18+) in the United States consumes between 100 and 150 mg of caffeine a day, with most of this coming from coffee. The average child (12+) consumes 100 mg of caffeine a day, with most of this coming from soft drinks. The average adolescent (12-17) consumes 100 mg of caffeine a day, with most of this coming from soft drinks. The average adolescent (12-17) consumes 100 mg of caffeine a day, with most of this coming from soft drinks.

Specialized services are available for students in Spanish and English. They also offer a variety of other services, including all-inclusive travel packages.

It is important that the university would not be perceived as a mere provider of the service. The present situation, although it has been described as a service, is not a service in the traditional sense of the word. It is a service in the sense that it is a service to the community, but it is not a service in the sense that it is a service to the university.

**Read, write, & understand better**

"I think there's a lot of fear in the industry of the 'recession' word, and 'green' is the only thing that has any value. But if you have something that can produce or perform, people don't care 'recession' and 'green' is not the word for you," he says. "Recession" is a word, it's a verb, it's a noun. "Green" is not.

Chen's new strategy was inspired by growing skepticism about the "open market" policy, which had been put forward in the 1980s, and by Russia's growing ties to the West. In 1995, he said, "the world had been in the 1980s."
